

CAMILLUS CUTLERY: Craftsmen of quality knives

Over the past century, sportsmen have come to depend on Camillus Cutlery for many of the finest knives made. The Camillus tradition of using the best materials combined with superb workmanship has been passed from father to son, craftsman to craftsman, one knife at a time.

Today, this tradition remains vibrant, giving every Camillus knife an edge—its blade is renowned for its sharpness, its durability and its quality. Whether you're out to fillet a fish, dress a buck, peel an apple or open a package, Camillus has the right knife for the job.

Compare a Camillus knife against any other. From the materials to the blade, the lock to the workmanship, you'll see why, for more than a century, Camillus gives sportsmen the edge they look for.

INTRODUCING PROMASTER: A Camillus innovation in folding field knives

A new state-of-the-art in folding field knives—the first ever to offer a patented "Triple Lok-Back" configuration. Clip blade, blunt-nosed blade, and a self-cleaning bone saw, brought together in one knife after extensive field testing. Each blade has been hardened and crafted to hold the famous Camillus edge under the demands of tough field duty. The lightweight handle is made from non-slip, water, chemical, impact-resistant Kraton®. Sportsmen who respect a folding field knife with a unique blend of craftsmanship, innovation and utility will want to take a close look at the new ProMaster from Camillus. It warrants a place at every hunter's side.
